

2018 Annual Report

The mission of Community Boating Center (CBC) is to provide instruction and access to recreational sailing and boating for all, with an emphasis on children, without regard to financial station. We do so by providing programs that build self-esteem, broaden horizons, and advance environmental awareness. CBC nurtures a true sense of community in which the diversity of the urban environment is respected and encouraged. Learn more: www.communityboating.com

Youth Programs:

Summer camps empower youth with skills, intelligence, sound judgment, self-reliance and responsibility for vessel, crew and self.

Our Science, Technology, Engineering, Math (STEM) work is a national model & first "Center of Excellence" for US Sailing's "Reach" Initiative.

Events like our "Renaissance Regatta" and waterfront "Sailebration" parties with school & company partners combine sailing & fun.

Outreach initiatives ensure boys & girls from different cultures & backgrounds learn tolerance, trust, and respect for each other.
